Riverrun Console

CODE: 5165

A four-door console with a hand-carved front cut in a continuous undulating wave, dyed a deep custom red and sealed in clearcoat. The wave lines run unbroken across all four doors, reading as one carved surface rather than four separate panels. The case, top, and tapered legs are solid ash, left in a clear natural finish that keeps the grain visible and frames the carved red face.

Shown in Ash with a Clearcoat and Custom Red Stain

Dimensions: 80"W x 16"D x 40"H
